

CREATE YOUR CONDUU TOOLS IN 4 SIMPLE STEPS

CUSTOMIZED. AFFORDABLE. EFFECTIVE.

.... INDISPENSABLE.

ABOUT US

INTERNATIONAL BUSINESS APPS LLC is a globally-operating company with offices in the USA and Germany. We specialize in developing software as well as marketing campaigns for businesses, organizations, associations and clubs regardless of size, type and sector.

Our team of consultants, software engineers and marketing specialists work with a wide professional network of experts around the world - people who know how to take your business to new heights with mobile apps, web tools, state-of-the-art software and marketing campaigns.

Nearly three-quarters of Americans check their mobile phones at least once per hour and 90% of that time is now devoted to using apps. Therefore mobile solutions need to move to the forefront of communication, management, content and advertising strategies.

Why wait, when you can increase customer loyalty, target new clients groups, build effective engagement mechanisms and save money and resources? Now is the time.

Get in touch today and learn about affordable and highly-effective solutions:

BUSINESS APPS

PRODUCTS & FEATURES

CONDUU solutions are custom-made mobile apps, members' websites and software systems for property management, planned and gated communities, condominium and home owners associations as well as country clubs, to name a few.

If you manage or work with one of the above, **CONDUU** will make your job simple to the core!

Provide your communities with convenience and speed:

- document management,
- electronic-forms,
- payment option,
- gate clearance, etc

Distribute

- news,
- important dates,
- reminders,,
- updates,
- newsletters,
- directories,
- FAQ, etc

Communicate with residents, owners, board members and colleagues from management, security and maintenance.

Give users the opportunity to share infos via bulletin boards, ballots and many adaptable features.

Take care of management tasks in secured sections for staff and directors. Upload, share and edit documents, send emails, set deadlines, create to-do lists and complete any virtual task.

QUESTIONS & ANSWERS

WE ALREADY HAVE A WEBSITE. WHY DO WE NEED CONDUU?

Technology constantly evolves. Today online activity continues to shift to mobile. Thus, it is essential that websites can be properly used with all devices, such as mobile phones, tablets and even smartwatches - experts say they are **responsive**. Many seemingly modern websites can not and are becoming obsolete. **CONDUU** is a highly adaptable and modular solution - ready for the next generation of mobile devices.

That is why we combine **responsive** websites with affordable and customized mobile apps that supplement each other. Our systems provide features that most other websites can not, such as gate clearance, and instant communication with other users. They will not necessarily replace, but enhance your existing systems and workflows.

WON'T IT BE DIFFICULT TO GET EVERYONE ON BOARD?

Home owners and community residents pay good money to enjoy the luxury of gated community living. They are entitled to state-of-the-art communication and management solutions that save time and reduce costs. Moreover, future-oriented digital assistance that provide convenience at home will make communities more attractive for potential buyers.

Nevertheless, we know that decision making in a community involves several parties and reaching a consensus might be difficult. This is why transparency and individual consultation are of paramount regard.

We will make sure our proposal fits your budget and create a personalized solution for each and every community. Why wouldn't everyone be on board?

ISN'T THE SET-UP COMPLICATED AND TIME-CONSUMING?

It is our mission to make your job more efficient. Our experience with condominium associations and management companies has leveraged our abilities in providing a hassle-free set-up process. We will take care of communications with owners, residents, staff and security companies. We will make sure to gather the necessary information and keep everyone abreast, so you don't have to. Moreover, we will check how to best integrate new tools with your existing systems.

SOME OF OUR COMMUNITY MEMBERS MIGHT NOT BE ACCUSTOMED TO MODERN TECHNOLOGY.

WON'T THEY HAVE DIFFICULTIES USING NEW TOOLS?

We create products with diverse users in mind, not only digital natives. All of our products are intuitive to use and optimized for diverse user groups, so members from all walks of life get to benefit from them, regardless of age and technological literacy.

Of course, our support team is available to answer questions and provide long-term assistance. To further cater to our customers' needs our team of experts is available to introduce new features to interested users and provide video tutorials explaining how to make the most of new tools.

WHO WILL UPDATE CONTENT?

If you don't have the luxury of time to keep your app up-to-date, our communication experts will still be there to assist you. We will promote it in the community, answer questions, and generate custom-fit content, such as newsletters, for you. Our long-term support and individual assistance is part of our 100% customer satisfaction guarantee.
